

## EKL 22206

65W TDP Premium Cooler for INTEL<sup>®</sup>  
Socket LGA 17XX / 1851

### Optimum cooling performance for INTEL<sup>®</sup> processors

#### Product description

The EKL 22206 dissipates the heat of your processor ideally and reliably. Thanks to its low height of just 123 mm, the EKL 22206 is suitable for all standard systems and workstations. The screw mounting developed for the Intel<sup>®</sup> LGA 1700 socket is particularly simple and secure: place the backplate, attach the cooler, tighten the 4 spring screws - done. The built-in fan has a 4-pin connection and can therefore be controlled manually via the mainboard. This enables an adjustable speed range of 500 - 1800 rpm.

#### Main features

- ✓ Powerful tower design
- ✓ Secure and stable screw mounting with included backplate for Intel<sup>®</sup> socket LGA 17XX
- ✓ High-performance thermal paste
- ✓ Quiet and low-vibration 92 mm PWM fan

## Cooler properties

|                       |                               |
|-----------------------|-------------------------------|
| Retail article number | 22210121006                   |
| EAN Retail            | 4250280331820                 |
| Power loss            | 65W TDP                       |
| Material              | Aluminium + copper            |
| Weight                | 440 g                         |
| Packaging unit        | 8                             |
| suitable for          | INTEL® Socket LGA 17XX / 1851 |

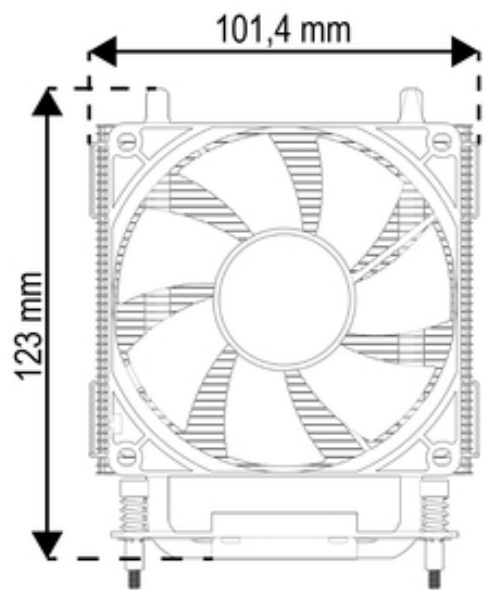

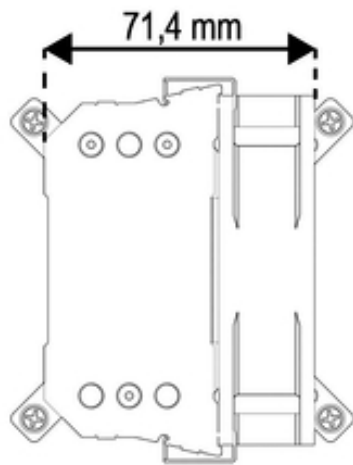

## Fan properties

|                   |                   |
|-------------------|-------------------|
| Width             | 71.4 mm           |
| Length            | 101.4 mm          |
| Height            | 123 mm            |
| Speed min.        | 500 U/min         |
| Speed max.        | 1800 U/min        |
| Warehouse         | Hydraulic bearing |
| Operating voltage | 12 VDC            |
| Volume flow       | 48.25 m³/h        |
| Noise level min.  | 22.8 dB(A)        |
| Service life L10  | 25000 h by 25 °C  |
